Professional Experience

DLK Technologies Pvt Ltd

Mar 2024 – Present

Full Stack Web & Mobile App Developer

- Developed and published **SSAST Online Appointment**, a React Native mobile app for booking services like doctor, yoga, and astrology sessions. Built the complete frontend, integrated secure payments, and connected RESTful APIs. Deployed the app to the **Google Play Store**.
- Developed a – **Vehicle Booking App** – consisting of two apps: one for customers to book passenger/goods vehicles, and one for vendors/drivers to register vehicles and receive bookings. Built the complete frontend using React Native, with real-time notifications, OTP verification, and secure API integrations. Contributed to backend by writing key RESTful APIs.
- Built a mobile app for redeeming discount coupons at restaurants, Hotels and salons, with full support for **English and Arabic** language selection. Implemented real-time **location-based notifications** to alert users when they are near listed partners. Developed the entire application using React Native, including UI and logics.
- Built a web app in **React.js** for creating and sharing employee profile cards. Completed responsive UI design and integrated APIs for data handling and sharing functionality.
- Developed multiple **WordPress** websites, including dynamic business sites and **eCommerce platforms**.

Projects

- Created a **Task Management App** with user authentication and CRUD functionality. Users can securely add, edit, update, and delete tasks with a clean and responsive UI.
- Developed responsive websites for a **pet shop** and a **restaurant** using **React.js** and **Tailwind CSS**. Focused on clean UI design, mobile responsiveness, and smooth user experience.
